Highways and Byways

Grant County, Wisconsin, offers so much in the way of scenic drive time that you could be a resident and never finish discovering delightful new paths to its inner beauty.

Our northern boundary is marked by the dark and ever-changing Wisconsin River. State Highway 133 and County Highway C wind alongside its undeveloped public lands. Camping is allowed on state-owned islands and shores. The lower Wisconsin River provides explorers miles of secluded backwaters, islands and sandy beaches to discover.

To our west is the legendary Mississippi River. Several state and county highways take you to many boat landings and to opportunities for hiking, camping and wildlife observation. The bluffs that line our rivers and streams are adorned with a variety of tree, plant and flower species.

Wildlife is abundant. Deer are especially evident during early morning and early evening times – so proceed with caution. Grant County is a bird-watching paradise and birds of all kinds can be seen, especially the great American Bald Eagle.

The Great River Road winds through 60 miles of beautiful Grant County and its riverside communities. Stop to stretch your legs at either of our famous state parks – Nelson Dewey or Wyalusing - both of which feature trails, restroom facilities, camping and picnic areas for your enjoyment.

Our unglaciated and pastoral landscapes can be investigated more closely by state-designated Rustic Roads. Some in Grant County include Scenic, Sleepy Hollow Roads and Liberty Ridge Road. The Irish Ridge Road between Potosi and Cassville will also fill you with beautiful views that won't easily be erased from your memory.

Love rural life? If you don't mind sharing the roads during planting and harvest seasons with tractors and horse-drawn buggies, you've come to the right place! It's well worth your patience to view the patchwork of fields, hardwood stands and streams that earmark our great county.

Grant County is steeped in history and much of it is evident in many of our historic downtowns. Great care has been taken to preserve a number of these historic buildings. Stop and say "hello," whether you are staying in or passing through Grant County. We're sure the qualities that give the Midwest its good name will be evident in the people you meet. Old churches and farms, cemeteries, breweries, one-room school houses and mines dot our landscape as monuments to our founding fathers. Museums adorn many of our towns, with stories of "days gone by" ready to be told to every willing ear.

Recreational Areas...

Experience Rural Wisconsin Life In 1900 At Stonefield Historic Site

Nelson Dewey, Wisconsin's first governor farmed this land. He had high hopes for this pastoral stretch of land nestled between the Mississippi River and the spectacular limestone bluffs that tower above it. He called his beloved riverside agricultural estate Stonefield. While his farming enterprise faded into history, the name he gave it lives on at a historic site that pays homage to Dewey and the history of agriculture in Wisconsin.

Return to Stonefield's historic roots on a guided tour of Governor Nelson Dewey's home site, offering a sweeping vista overlooking a re-created 1900 rural farming village beside the Mississippi River.

Step inside Governor Dewey's historic 1870 stone barn and peruse the museum shop's full line of books, note cards, candies, arts-and-crafts items and other souvenirs marking back to Wisconsin's agricultural heyday.

Stonefield is one of the Great River Road Interpretive Centers.

This historic area has become the site of one of Wisconsin's greatest archeological finds ever. The banks of the river revealed a large burial site. It belonged to the Woodland Indians who lived here 1000 years ago. Found at this site were copper instruments and jewelry. The Woodland Indians came to this region from the shores of Lake Michigan. Grant River Recreation area is connected to the site. The Corps of Engineers Park Rangers protect this area under Title 36 Federal Regulations. No digging or ground disturbance is allowed.

Sinsinawa

Community History:

Sinsinawa is an unincorporated community in Grant County, one mile north of the border with Illinois. The town is best known for being the mother house of the Sinsinawa Dominican Sisters. The community's name means either "rattlesnake" or "Home of the Young Eagle" in Sioux. The first white settler in the area was George Wallace Jones, who purchased land for a lead smelter in 1827. He soon sold the land to Samuel Mazzuchelli, who subsequently built a men's college in 1846. Mazzuchelli founded the Sinsinawa Dominican Sisters in 1847. This religious order founded a women's college and high school in Sinsinawa in 1865. Sinsinawa Mound is a cone-shaped hill in the area, from which the area gets its name. Sinsinawa Creek runs along the hill south towards the Fever River in Illinois.

Experience the tranquility of Sinsinawa Mound.

Nearby Attraction

Kieler:

Located about seven miles northeast of the Iowa-Wisconsin border. The community was named after John Kieler, an immigrant from Prussia who arrived in the area in 1855. Immaculate Conception, the only Catholic church in Kieler, was constructed in 1858. The church was remodeled in 1896, when a rock exterior and two front towers were added. A 2004 addition includes a large gathering area on the west side.

Fun at Hazel Green Opera House.

Hazel Green:

The first permanent settlement in Wisconsin was in Hazel Green in 1825. In 1831, Lucius Lyon began surveying just south of the present day Hazel Green in southwestern Wisconsin. This is the place where all land that was to become Wisconsin would be measured. Today, every property deed in Wisconsin includes a description which is based on the Point of Beginning (POB). The village has several bed and breakfasts and antique shops to offer history enthusiasts and antique shoppers. "Close enough, but far enough away" to regional population centers such as Dubuque, IA, Galena, IL and Platteville, WI opportunities. Come spend a winter weekend with us after hitting the slopes at one of the ski resorts located within 20 minutes of Hazel Green. The Village boasts a beautiful recreation park, as well as a recently enhanced Memorial Park. Golf courses and pools are located nearby.

Lancaster

www.lancasterwisconsin.com

Community History:

Lancaster is the county seat of Grant County. Located in the extreme southwest corner of Wisconsin, the Mississippi River forms the area's western edge. The discovery of lead, or "mineral" in the region during the early part of the nineteenth century made Grant County one of the earliest centers of population in the state and the Midwest.

Grant County was created by the first territorial legislature. Lancaster owes its stature as county seat to its central location in the county.

Historical Facts:

Lancaster is home to the first publicly conceived civil war monument, dedicated in 1867. Nelson Dewey, Wisconsin's first governor was from Lancaster and is buried there. Lancaster's architectural treasures include the Patrick Kinney House, designed by Frank Lloyd Wright, Dave Schreiner, the first All American from the University of Wisconsin was also from Lancaster. Pleasant Ridge, just outside of the city limits was first settled by freed slaves. Pleasant Ridge was one of the first integrated schools in the Nation.
